

Mini Book Instructions:

1. Print on 8.5 x 11-inch paper and make sure the printer setting is set to NO scaling.
2. Double fold along all lines (fold one way and then the other).
3. Fold short sides together and cut along the dotted line only.
4. Open up and fold long sides together with printed pages to the outside. Hold each side and push towards the center, allowing the fold in the center to pop out. Continue to push to the center until all folds meet in the middle.
5. Fold pages around to form the mini book, with the cover at the front.
