

Temperature Chart

For a whole week chart the temperatures in your hometown and in a town in the biome you are studying. *(You can easily get these daily temperatures off the internet! Hint: Put the weather on your home page for these two cities. This will make it easy for your child to chart. You could then add cities from the other biomes as you come to them!)*

	Temperature in _____	Temperature in _____
Sunday		
Monday		
Tuesday		
Wednesday		
Thursday		
Friday		
Saturday		

Are the temperatures different? If so, why? _____

What day was there the greatest difference in temperature? _____

What was the average temperature for the week for each city? _____
